

# CLFE4EOC

Four Channel Ethernet over Coax with IEEE 802.3af 15.4W Pass-Through PoE, 10/100Mbps, Industrial, Local/Remote Configurable, Module

## Características

4 10 / 100Mbps Ethernet channels through coaxial cable. Individual channel units can be powered by a PoE switch or the included power supply. These units provide maximum flexibility for extending a powered device (PD) via long-distance copper. DIP switches are provided for easy selection of local or remote configuration 10 or 100 Mbps and 1 pair or 4 pairs (UTP).
